STEP 4

You can log into the CanFigureIt Game or Teacher Portal to begin!

IMPORTANT!
When logging in, be sure to always use the "Log in with Clever Button".

HOW TO IMPORT ROSTERS FROM CLEVER

STEP 1
Log into the CanFigureIt Teacher Portal and select IMPORT in the top left corner.

STEP 2
Select the Clever Classrooms you would like to import. All students in these classes will be imported.

IMPORTANT! If you are matching students to existing CanFigureIt Students, it is recommended to import only one class at a time, since the matching process may only be completed once.

CanFigureIt® GEOMETRY

STEP 3
If you do not already have classes set up within CanFigureIt, click SKIP here to directly import your Clever rosters into new classes.

If you already have CanFigureIt classes configured, you can match them to your Clever Classrooms here.

Import from Clever Classroom ✕

Match your Clever Classroom(s) to your CanFigureIt class below.

STEP 1: Select your Clever Classroom.

Fourth grade - Perry - ▼

Fourth grade - Perry -
Fifth grade - Perry -

No CanFigureIt classes created or students to match? No problem!
Click SKIP to directly upload your Clever Classroom roster(s).

Having problem with import? Click here to contact us.

CanFigureIt®
GEOMETRY

STEP 4

If you have students in your CanFigureIt classes, you can also match each imported student from your Clever Class to an existing CanFigureIt student in the next step. All students not matched with a current CanFigureIt account will be automatically imported; a new student account will be created.

IMPORTANT!

When you select Continue from this screen, you need to be patient. It can sometimes take a minute or two for Clever and CanFigureIt to connect*
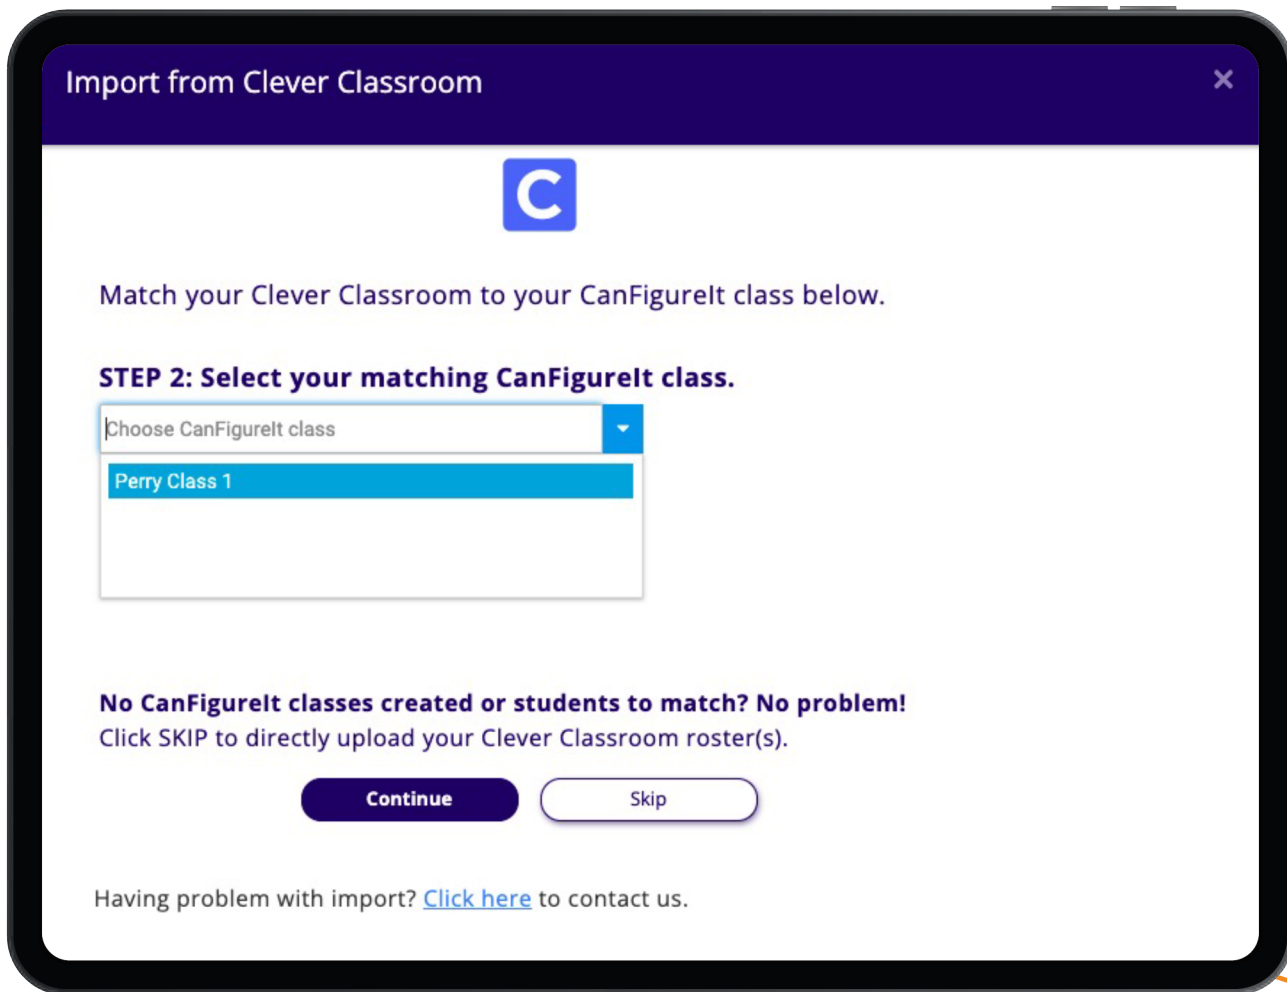

Import from Clever Classroom ✕

CanFigureIt®
GEOMETRY

STEP 5
After selecting IMPORT, each imported class will appear
in your CanFigureIt Teacher Portal with a Clever Classroom icon.
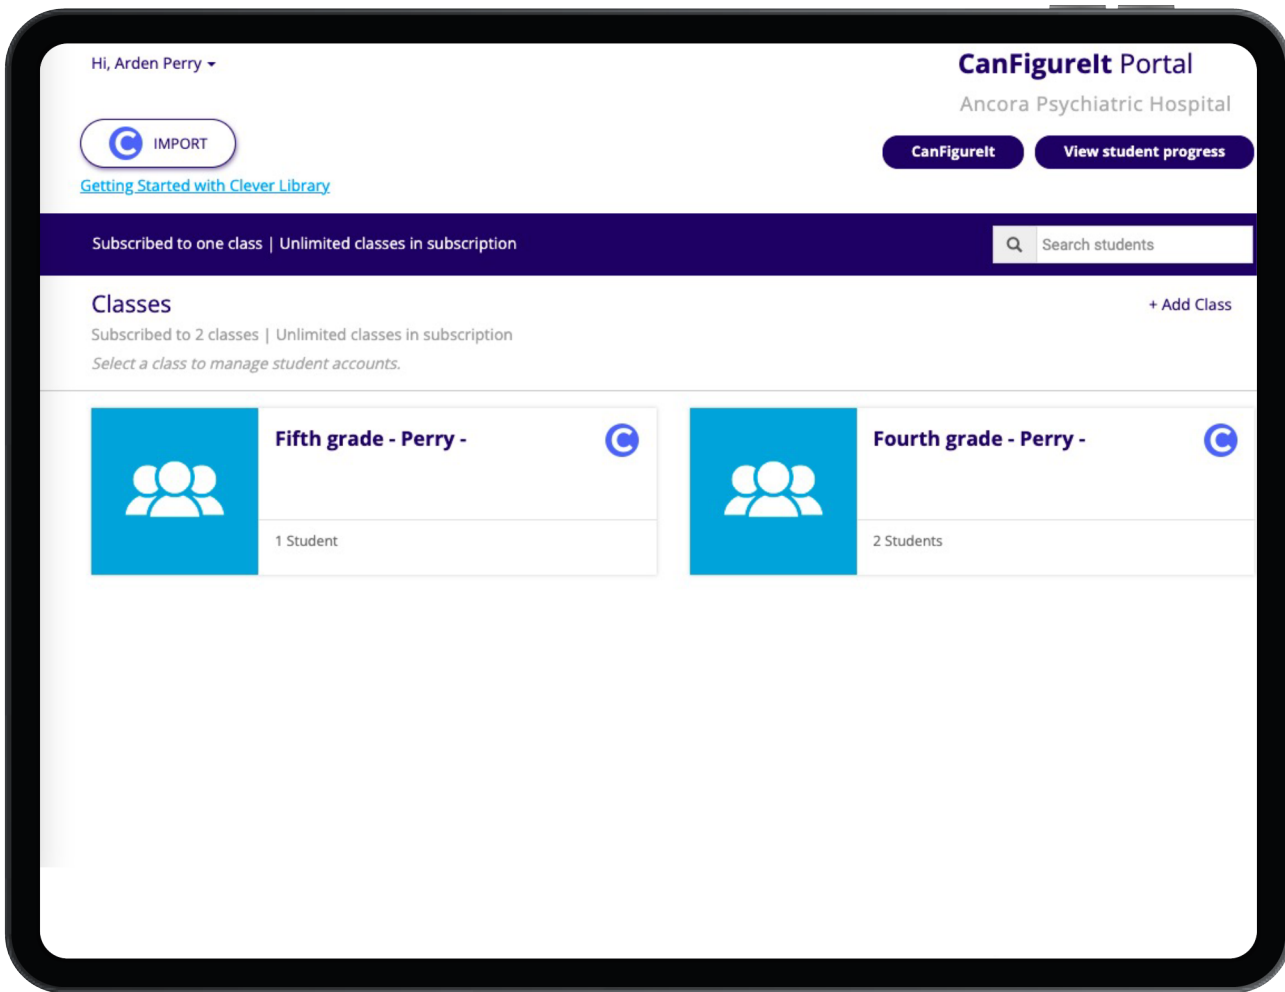

STEP 6
The imported students must log into CanFigureIt with
their Clever account credentials using the "Log In With Clever" button.

IMPORTANT!
Please do NOT give students the Class Code after you have imported them, as they will only create
duplicate accounts by using it. Students must log in using the "Log In With Clever" button.
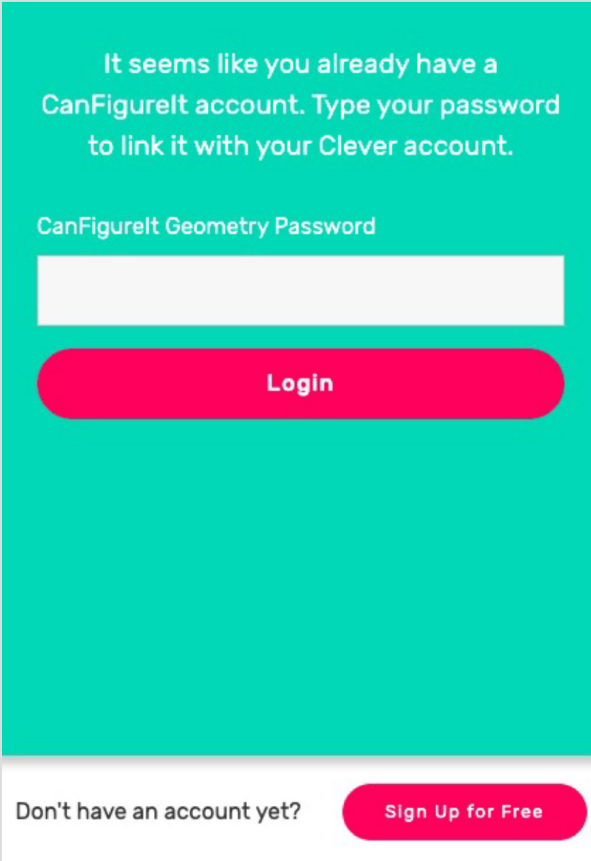

HOW TO CONNECT AN EXISTING CANFIGUREIT TEACHER ACCOUNT TO A CLEVER ACCOUNT

METHODS

There are two ways to accomplish this. You may choose any of these methods:

- From the login screen for either the Teacher Portal or CanFigureIt, click the "Log In With Clever" button. This will match your Clever account with your existing CanFigureIt account with the same email address. The accounts will be automatically connected.

- From the Free Teacher Sign Up screen, click the "Sign Up With Clever" button. This will match your Clever account with your existing CanFigureIt account with the same email address. The accounts will be automatically connected.

After using either of these methods, you will be able to use either the "Log In With Clever" button, OR your original CanFigureIt account information, to log in.

It seems like you already have a CanFigureIt account. Type your password to link it with your Clever account.

REMOVING A STUDENT'S CLEVER CONNECTION

If you incorrectly matched a student, or would like to remove the Clever account connection, you can do this in the Teacher Portal.

STEP 1
Select the class that this student is in.

STEP 2
Select the student that you would like to unlink from the Clever Account.

STEP 3
Click the 'Actions' tab in the top right corner and select 'Remove Clever Connection'.

Your student's Clever account will be unlinked from the CanFigureIt account. You can re-import your class to import missing students (it will not duplicate students).
