CANFIGUREIT: GETTING STARTED WITH GOOGLE

Integrating CanFigureIt with a Google Classroom-enabled domain offers you and your students the opportunity to sign into CanFigureIt using the “Log In With Google” button - no account setup or class codes needed!

QUESTIONS?

Please email support@canfigureit.com or phone 844-222-2320.

GUIDE OVERVIEW

This guide offers an overview of:

- How to create a NEW teacher account using Sign Up With Google
- How to import rosters from Google Classroom
 - If you do not have classes set up within CanFigureIt
 - If you do already have classes set up within CanFigureIt (with or without students)
- Already have a CanFigureIt account? Learn how to connect your existing account to a Google account
- How to remove a student’s Google account connection

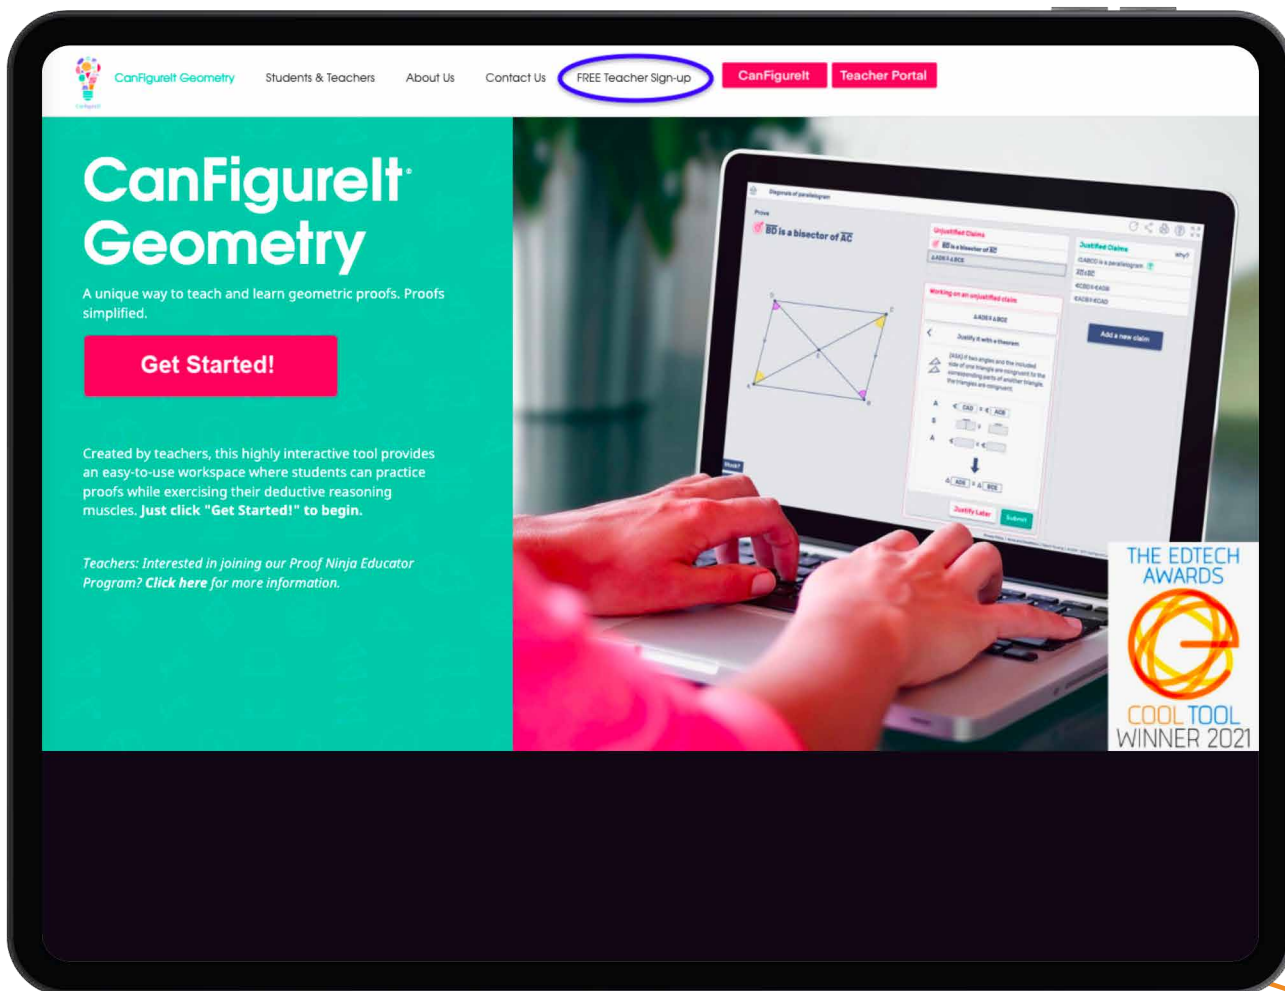

HOW TO CREATE A NEW TEACHER ACCOUNT USING SIGN UP WITH GOOGLE

STEP 1

Navigate to canfigureit.com.

STEP 2

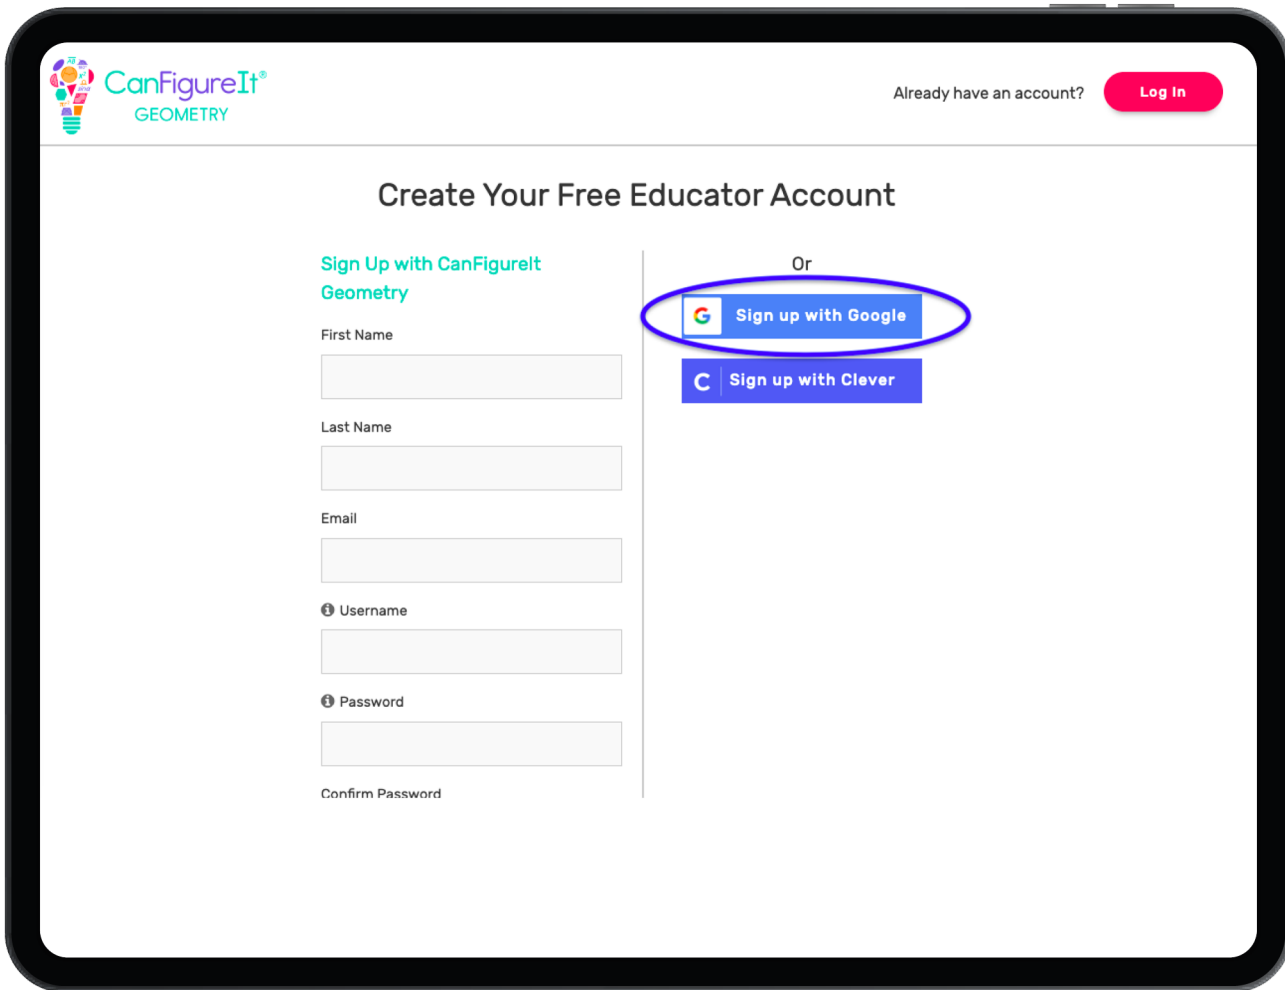

Click on "Free Teacher Sign Up" located at the top of the page.

The screenshot shows the CanFigureIt Geometry website interface. At the top, there is a navigation bar with links for "CanFigureIt Geometry", "Students & Teachers", "About Us", "Contact Us", "FREE Teacher Sign-up" (circled in blue), "CanFigureIt", and "Teacher Portal". The main content area features a large teal banner with the text "CanFigureIt Geometry" and "A unique way to teach and learn geometric proofs. Proofs simplified." Below this is a pink "Get Started!" button. To the right, there is a photograph of a person's hands typing on a laptop. The laptop screen displays a geometry proof interface with a diagram of a rectangle and various proof steps. In the bottom right corner of the laptop screen, there is a badge that reads "THE EDTECH AWARDS COOL TOOL WINNER 2021".

STEP 3

Click the "Sign Up with Google" button.

STEP 4

Follow the on-screen prompts to connect your Google account.

The screenshot shows the CanFigureIt Geometry website's account creation page. The main heading is "Create Your Free Educator Account". On the left, there is a "Sign Up with CanFigureIt Geometry" section with input fields for First Name, Last Name, Email, Username, Password, and Confirm Password. On the right, under the heading "Or", there are two buttons: "Sign up with Google" (highlighted with a blue circle) and "Sign up with Clever". An overlay window titled "Sign in - Google Accounts" is shown in the foreground, displaying the Google sign-in interface for "Playmada Games". The overlay includes a search bar for "Email or phone", a "Forgot email?" link, a "Next" button, and a "Create account" link. The URL in the browser is "accounts.google.com/o/oauth2/auth/identifier?response_type=code&access_t...".

STEP 6

Once your Google Account is connected, add your school information.

The screenshot shows the CanFigureIt Geometry website interface. At the top left is the logo, and at the top right is a 'Log In' button. The main heading is 'Create Your Free Educator Account' with a sub-heading 'Enter Organization Information'. The form contains the following elements:

- I'm Located:** Radio buttons for 'In the USA' (selected) and 'Outside the USA'.
- I'm a:** Radio buttons for 'K-12 Teacher Teacher' (selected), 'College / University Instructor', and 'Homeschool / Parent / Guardian'.
- Zip Code:** A text input field containing '10017'.
- School:** A dropdown menu with the placeholder text 'Search for your school'.
- Navigation arrows and '2 of 4' indicating the current step.

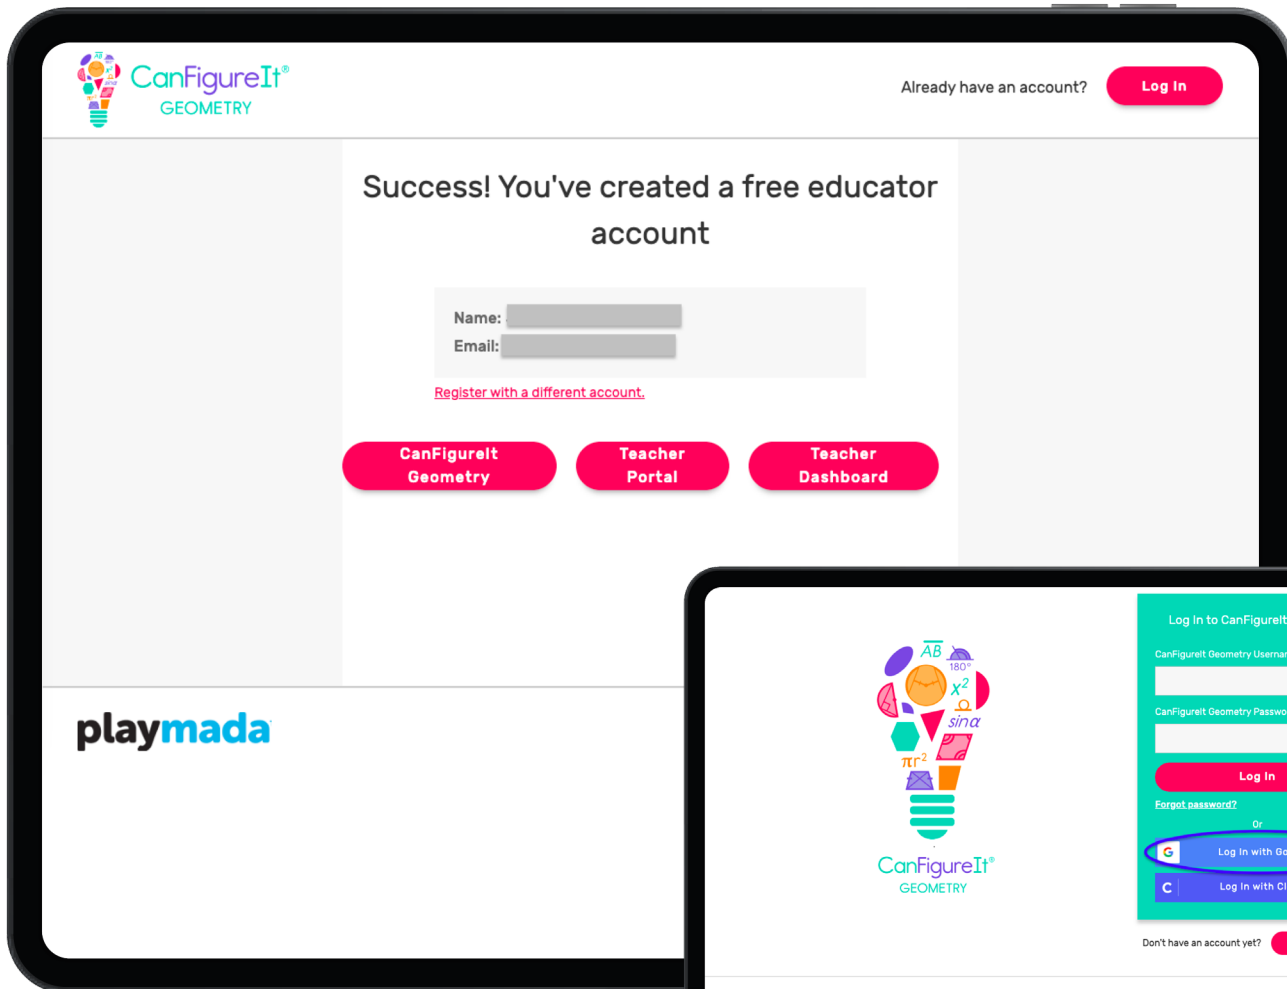

STEP 7

Confirm and accept our Privacy Policy and Terms and Conditions.

The dialog box has a title bar 'Terms and Conditions' with a close button (X). The main text reads: 'By completing this form, you accept to our [Privacy Policy](#) and [Terms and Conditions](#).' At the bottom, there are two buttons: 'Cancel' and 'Accept'.

STEP 8

You can log into the CanFigureIt Game or Teacher Portal to begin!

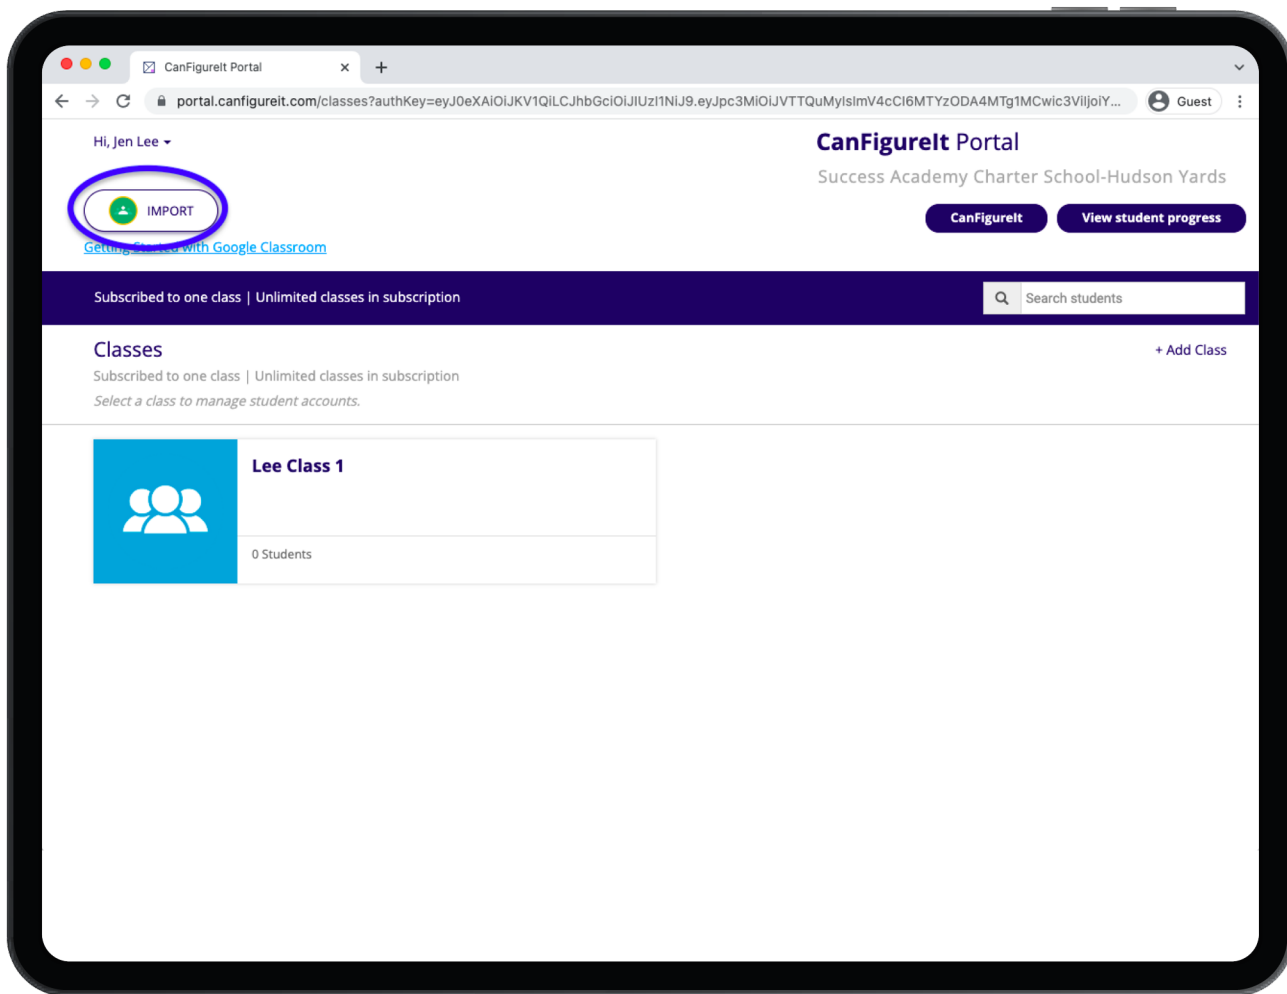

IMPORTANT!

When logging in, be sure to always use the "Log in with Google Button" (not the "Log in" button above it).

HOW TO IMPORT ROSTERS FROM GOOGLE CLASSROOM

STEP 1

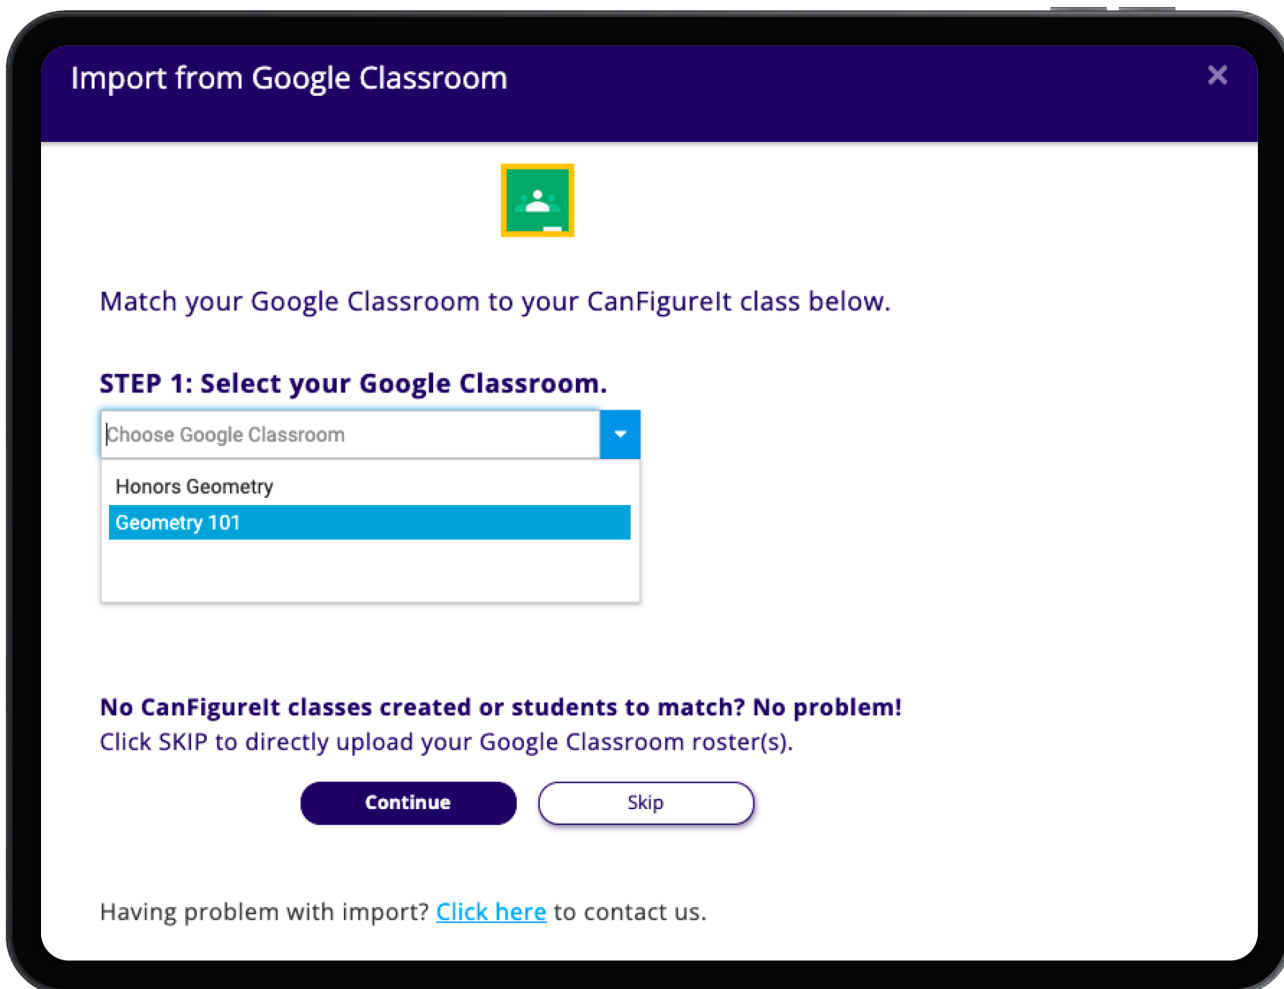

Log into the CanFigureIt Teacher Portal and select IMPORT in the top left corner.

STEP 2

If you do not already have classes set up within CanFigureIt, click SKIP here to directly import your Google Classroom rosters into new classes.

If you already have CanFigureIt classes configured, you can match them to your Google Classrooms here.

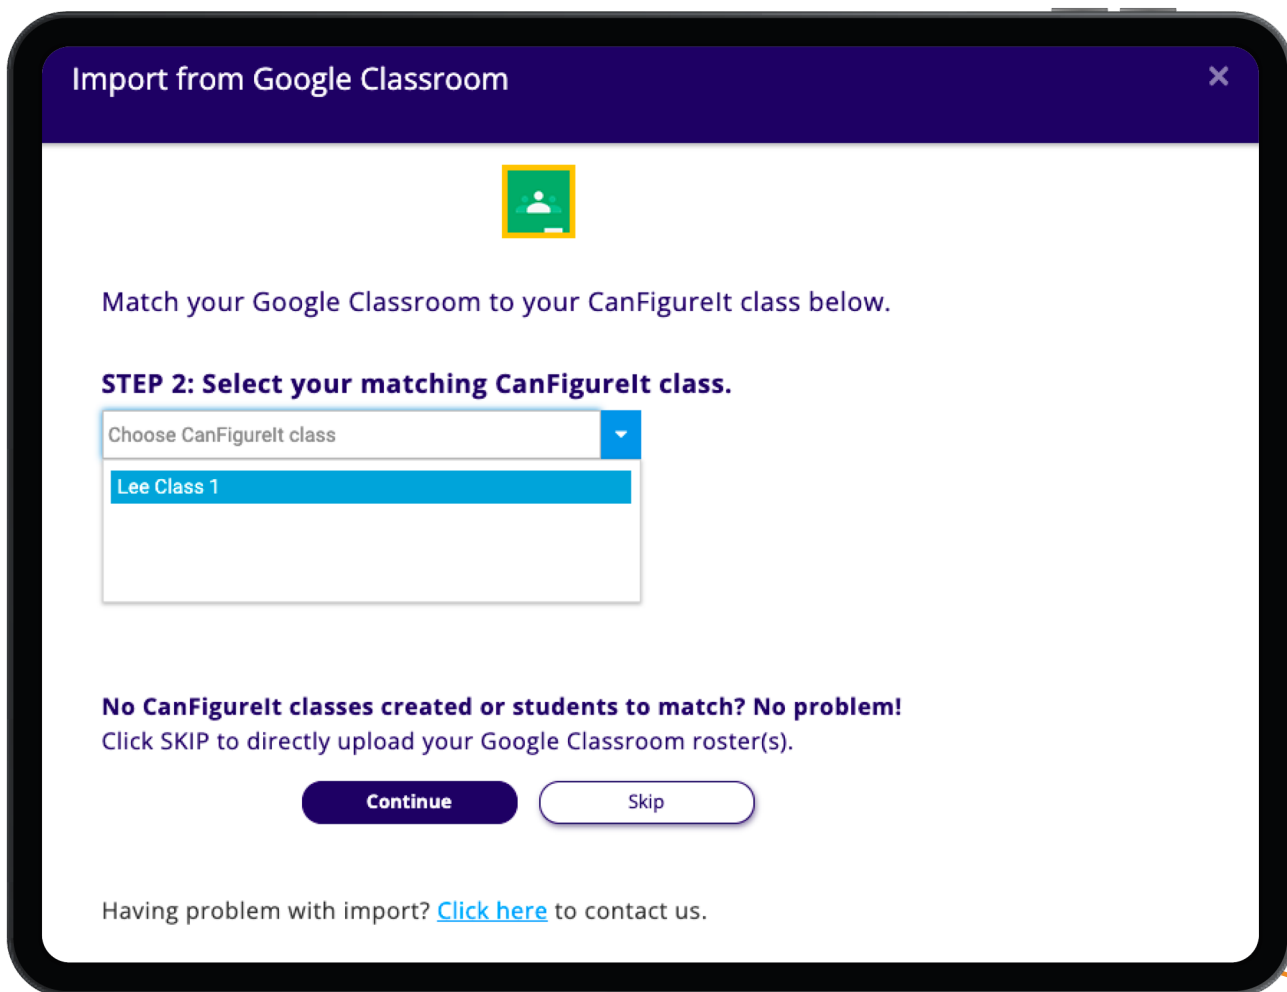

STEP 3

If you have students in your CanFigureIt classes, you can also match each imported student from your Google Class to an existing CanFigureIt student in the next step. All students not matched with a current CanFigureIt account will be automatically imported; a new student account will be created.

IMPORTANT!

Please note that when you select Continue from this screen, you need to be patient. It can sometimes take a minute or two for Google Classroom and CanFigureIt to connect.

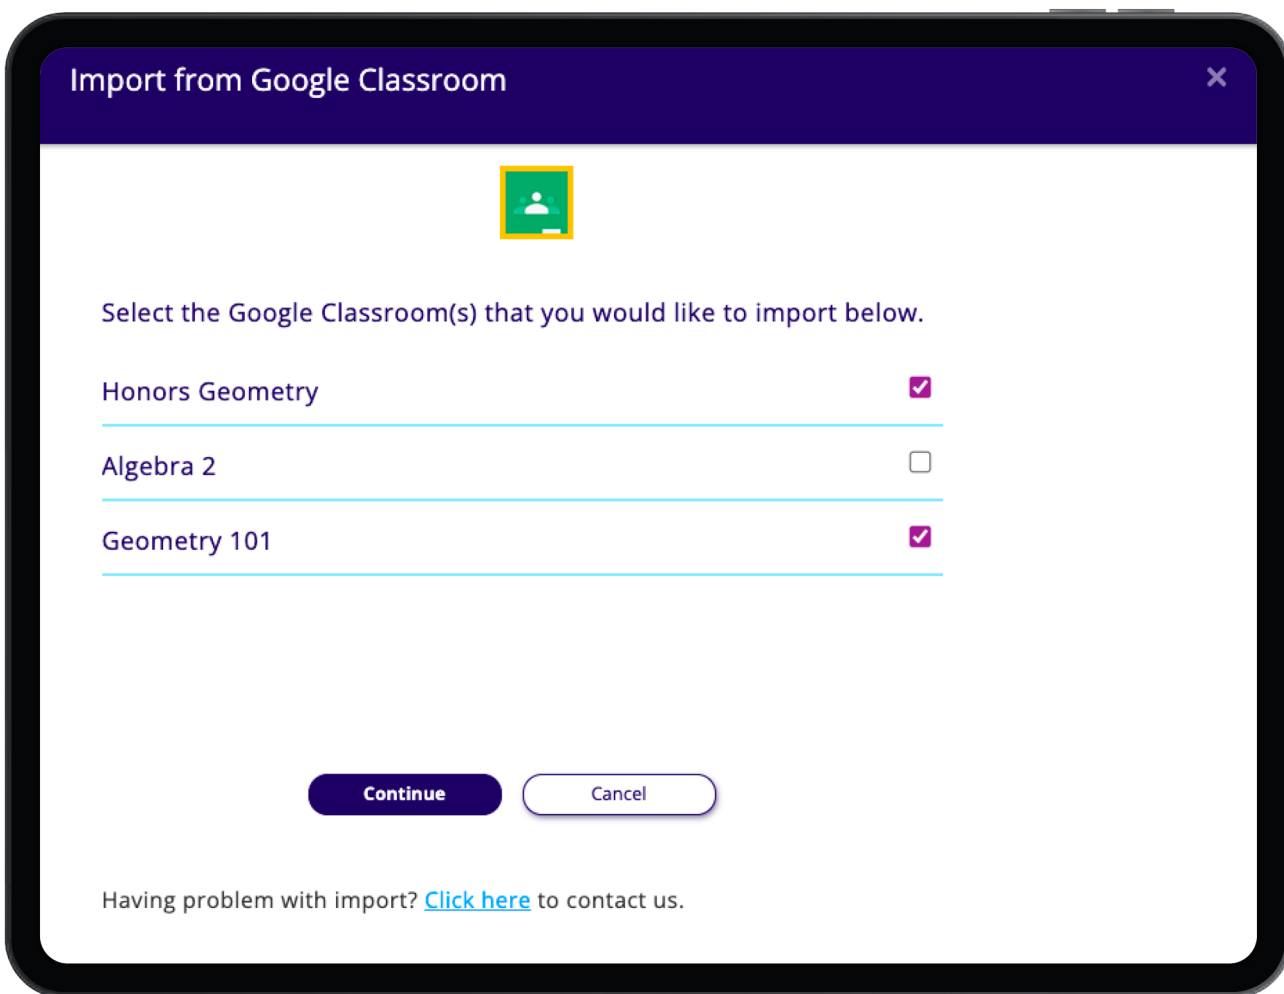

STEP 4

Select the Google Classrooms you would like to import.
All students in these classes will be imported.

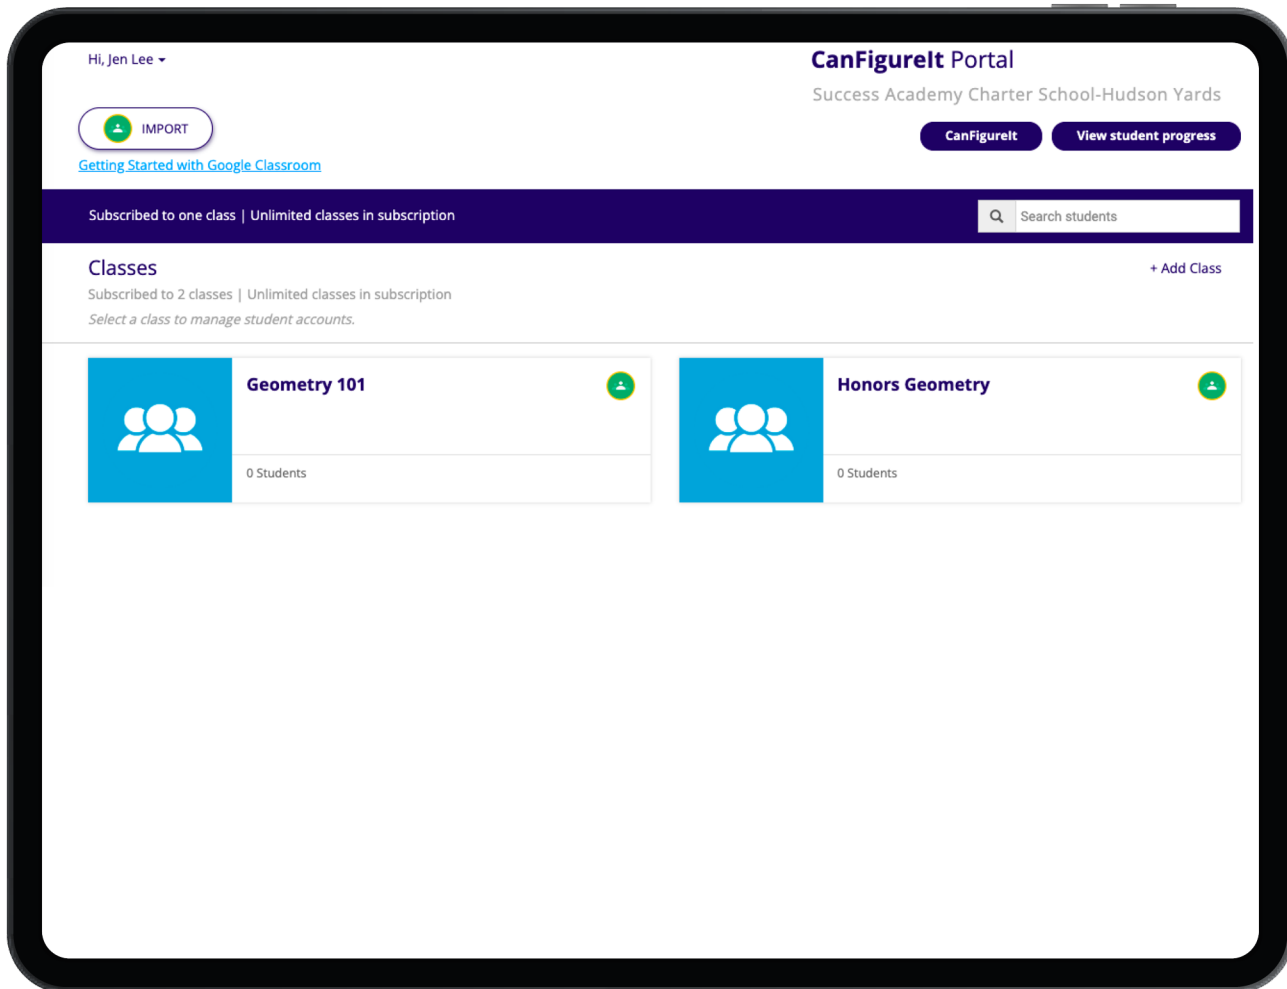

IMPORTANT!

If you are matching students to existing CanFigureIt Students, it is recommended to import only one class at a time, since the matching process may only be completed once.

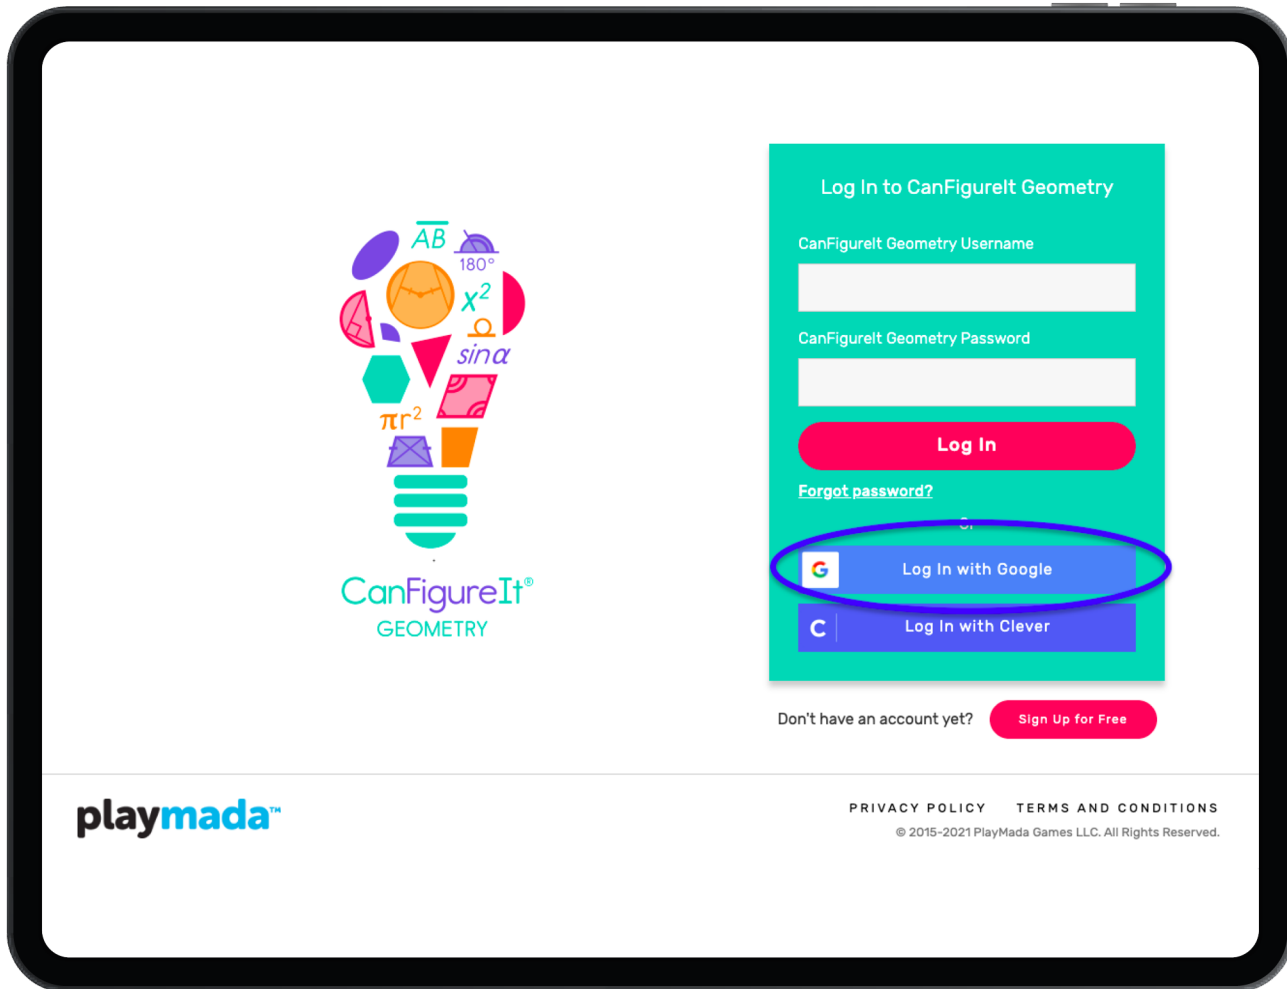

STEP 5

After selecting IMPORT, each imported class will appear in your CanFigureIt Teacher Portal with a Google Classroom icon.

STEP 6

The imported students must log into CanFigureIt with their Google account credentials using the “Log In With Google” button.

IMPORTANT!

Please do NOT give students the Class Code after you have imported them, as they will only create duplicate accounts by using it. Students must log in using the “Log In With Google” button.

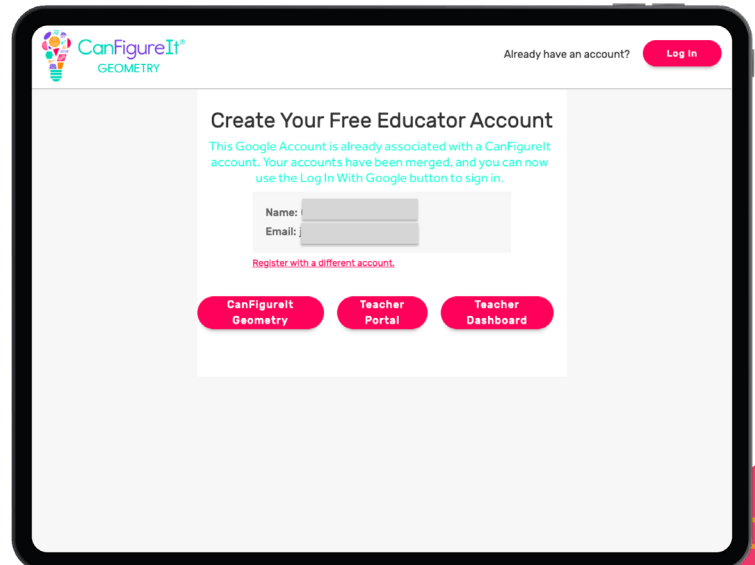

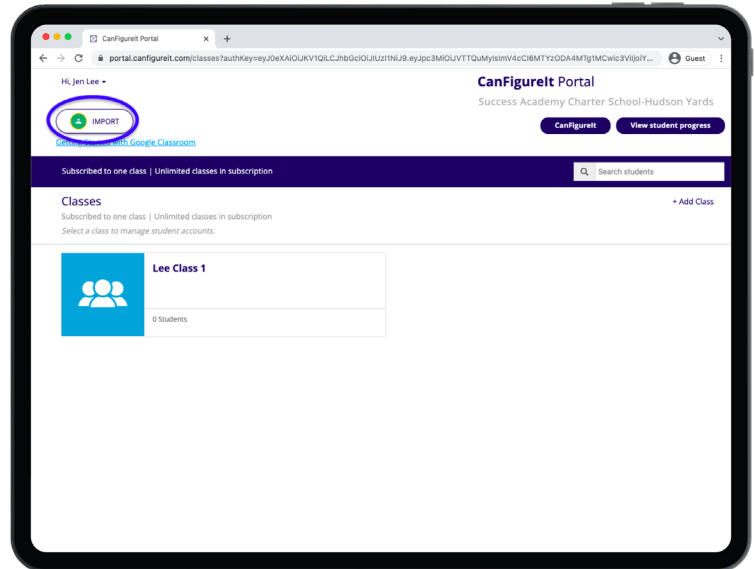

HOW TO CONNECT AN EXISTING CANFIGUREIT TEACHER ACCOUNT TO A GOOGLE CLASSROOM ACCOUNT

METHODS

There are several ways to accomplish this. You may choose any of these methods:

- Log in to the CanFigureIt Teacher Portal and select IMPORT from the top left corner. This will allow you to connect any Google account to your CanFigureIt account.
- From the login screen for either the Teacher Portal or CanFigureIt, click the “Log In With Google” button. This will match your Google account with your existing CanFigureIt account with the same email address. The accounts will be automatically connected.
- From the Free Teacher Sign Up screen, click the “Sign Up With Google” button. This will match your Google account with your existing CanFigureIt account with the same email address. The accounts will be automatically connected.

After using any of these methods, you will be able to use either the “Log In With Google” button, OR your original CanFigureIt account information, to log in.

REMOVING A STUDENT'S GOOGLE CONNECTION

If you incorrectly matched a student, or would like to remove the Google account connection, you can do this in the Teacher Portal.

STEP 1

Select the class that this student is in.

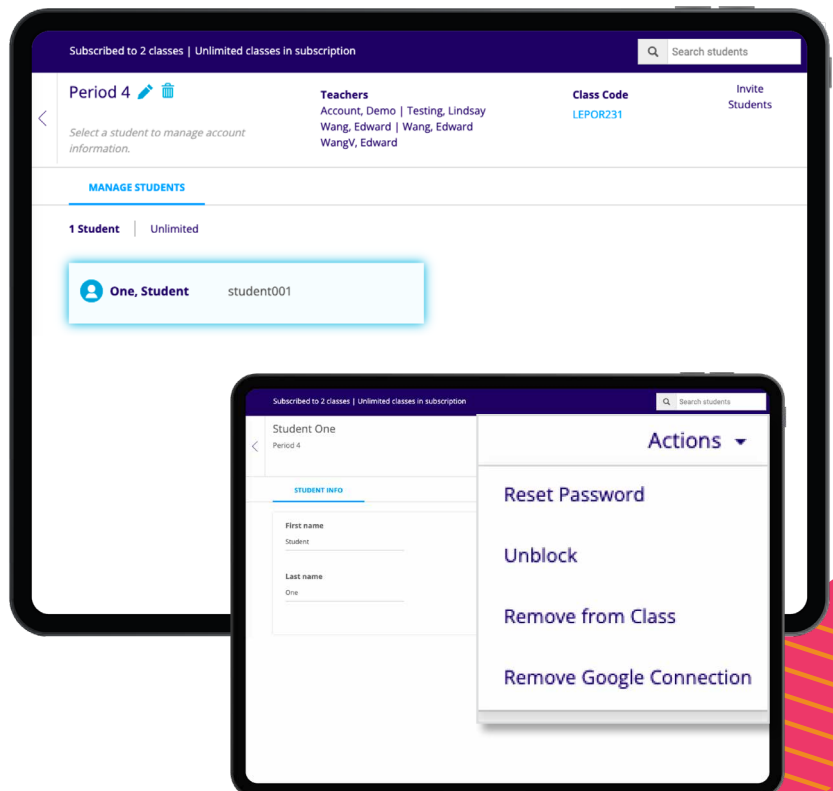

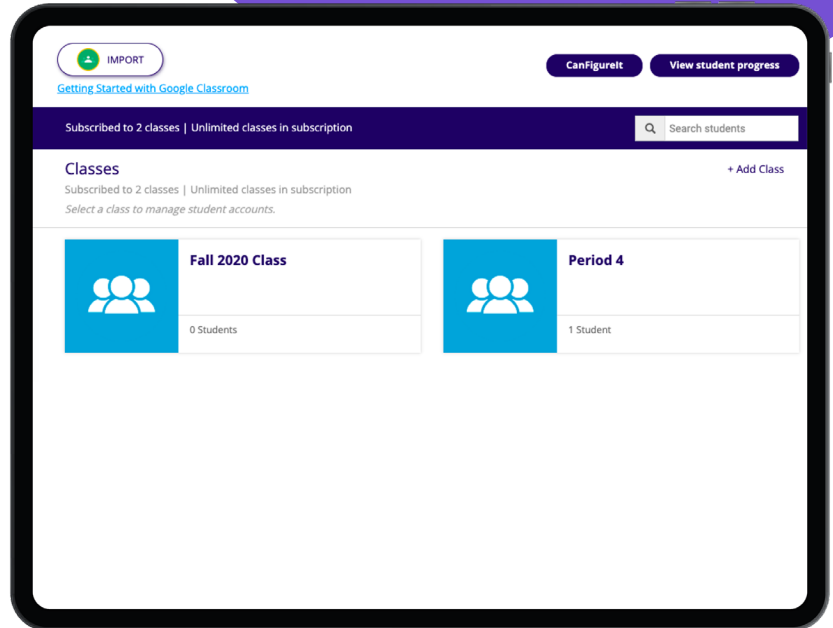

STEP 2

Select the student that you would like to unlink from the Google Account.

STEP 3

Click the 'Actions' tab in the top right corner and select 'Remove Google Connection'.

Your student's Google account will be unlinked from the CanFigureIt account. You can re-import your class to import missing students (it will not duplicate students.)
